2. Basis of preparation

The condensed interim consolidated financial statements for 1H FY2024 have been prepared in accordance with Singapore Financial Reporting Standards (International) (“**SFRS(I)**”) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim consolidated financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance of the Group since the last annual financial statements for the financial year ended 31 March 2023.

The accounting policies and methods of computation adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed interim consolidated financial statements are presented in Chinese Renminbi dollars (“**RMB**”), which is the Company’s functional currency, and all values are rounded to the nearest thousand (“**RMB’000**”) except when otherwise indicated.

The Group did not have to change its accounting policies or make any retrospective adjustments as a result of adopting those standards.

2.2. Use of judgement and estimates

In preparing the condensed interim consolidated financial statement, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the most recently audited consolidated financial statements as at and for the year ended 31 March 2023.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

3. Seasonal operations

Right-of-use assets

The right-of-use assets are the land use rights for four parcels of land located in Liancheng County of Fujian Province, the People's Republic of China.

As at 30 September 2023, the land use rights of the Group for two parcels of land with carrying amount of RMB 5,768,000 and RMB 23,435,000 respectively (31 March 2023: RMB 5,840,000 and RMB 23,717,000 respectively) are mortgaged for bank loans.

In September 2018, Liangcheng Dizhongbao Modern Agriculture Development Co., Ltd (“**Dizhongbao**”), a subsidiary in the Group, entered into Land Use Rights Transfer Agreements (the “**Transfer Agreements**”) with 86 farmers, pursuant to which Dizhongbao leased a total of 91 plots of farmland for 15 years as a base for research and development to cultivate new varieties of sweet potatoes and to nurture sweet potato seedlings. Under the terms of the Transfer Agreements, Dizhongbao had made upfront full payments of approximately RMB 7,000,000 to the farmers for 15 years.

In March 2023, Dizhongbao entered into several land use right lease agreements (“**Lease Agreements**”) with several contracted suppliers (the “**Co-operatives**”) on top of the existing purchase agreement and Transfer Agreements to provide them with a one-off compensation of approximately RMB 40,000,000 in total for the rising cost of land lease in Liancheng County for the remaining period of purchase agreements and Transfer Agreements.

The Purchase Agreements entered during the financial years ended 31 March 2018 and 2019 carry similar terms and last for fifteen (15) years and grant Dizhongbao with the first right of refusal to purchase the sweet potatoes grown by the Co-operatives (through their contracted farmers) with the sprouted seedlings provided by the Group. In return, Dizhongbao makes prepayments to the Co-operatives every five years. The prepayments are used to offset the purchase made during the five-year period. Where the prepayments are fully utilised within the five (5) years, the payment of subsequent purchases are made in accordance with the agreed terms of each respective contract. Where the prepayments are not fully utilized within the five (5) years, the balance will be carried forward until it is fully utilized before the next prepayment is made.

Consolidated Statement of Comprehensive Income

Revenue

The Group's revenue for the six months ended 30 September 2023 ("1H FY2024") showed a modest increase of approximately RMB 2.4 million or 2.1% to RMB 117.2 million, up from RMB 114.8 million in the six months ended 30 September 2022 ("1H FY2023"). This marginal growth was primarily attributed to a decrease in revenue during the first quarter of FY2024 from April to June 2023, which was lifted by higher revenue in the second quarter of FY2024 (from July to September 2023).

Revenue in the first quarter of FY2024 was impacted by the surge in COVID-19 infections following the easing of stringent precautionary measures and travelling restrictions by the Chinese government in December 2022 and early 2023. The mass infections led to temporary cessation of business operations and hence, economic slowdown and lower consumer spending. The gradual economic recovery resulted in improvement in higher revenue in the second quarter of FY2024.

Accordingly, the Group recorded an increase of approximately RMB 0.6 million or 0.6% in the revenue from the sale of sweet potato snack products from RMB 97.9 million in 1H FY2023 to RMB 98.4 million in 1H FY2024, as well as an increase in the sale of fresh sweet potatoes by approximately RMB 1.8 million or 10.9% from RMB 16.9 million in 1H FY2023 to RMB 18.8 million in 1H FY2024.

Gross Profit and Gross Profit Margin

Gross profit increased by approximately RMB 2.5 million or 7.9% from RMB 32.2 million in 1H FY2023 to RMB 34.7 million in 1H FY2024. The increase in gross profit was mainly due to the increase in revenue from the sale of fresh sweet potato recorded in 1H FY2024 as compared to 1H FY2023. Correspondingly, the Group's gross profit margin increased from approximately 28.0% in 1H FY2023 to 29.6% in 1H FY2024 on the back of better efficiency at its manufacturing of sweet potato snack products, coupled with higher sales from the higher-margin fresh sweet potatoes.

Interest Income

Interest income increased by approximately RMB 351,000 or 133.0% from RMB 264,000 in 1H FY2023 to RMB 615,000 in 1H FY2024. This was mainly due to higher interest rates on bank deposits

Other Income

Other income increased by approximately RMB 299,000 or 61.4% from RMB 487,000 in 1H FY2023 to RMB 786,000 in 1H FY2024. The increase was mainly due to the sales of excess in-house cultivated sweet potato seedlings in 1H FY2024.

Marketing and Distribution Costs

Marketing and distribution costs increased by approximately RMB 2.3 million or 17.2% from RMB 13.4 million in 1H FY2023 to RMB 15.7 million in 1H FY2024. The increase was primarily attributed to higher operating expenses by RMB 3.3 million, publicity expenses by RMB 1.4 million, and traveling expenses by RMB 135,000. The increase was partially offset by lower advertisement expenses and employee benefit expenses, which decreased by RMB 2.1 million and RMB 447,000, respectively.

Administrative Expenses

Administrative expenses increased by approximately RMB 3.4 million or 22.4% from RMB 15.5 million in the 1H FY2023 to RMB 18.9 million in the 1H FY2024. The increase was due to a provision for higher audit fees in 1H FY2024 of RMB 0.6 million as a correction for the under-provision in 1H FY2023, as well as the increases in the amortisation of intangible assets of RMB 2.1 million, employee benefit expenses of RMB 0.4 million, travelling expenses of RMB 0.2 million, depreciation expense of RMB 0.2 million, research and development expenses by RMB 0.9 million, consultancy fees of RMB 0.2 million. The higher administrative expenses were partially offset by a decrease in directors' remuneration by RMB 0.2 million and a reduction in seedlings nursery fees of RMB 0.2 million.

Other Losses

Other losses increased by approximately RMB 251,000 or 18.6% from RMB 1.3 million in 1H FY2023 to RMB 1.6 million in 1H FY2024. The other losses was primarily attributed to a loss on disposal of property, plant and equipment of RMB 0.8 million and a donation of RMB 0.6 million made in 1H FY2024.

Finance Costs

Finance costs increased by approximately RMB 222,000 or 26.0% to RMB 1.1 million in 1H FY2024 as compared to RMB 0.9 million in 1H FY2023. The increase was due mainly to the increase in lending rates charged by the bank on the borrowings in 1H FY2024.

Income Tax Expense

Income tax expense was approximately RMB 1.7 million in 1H FY2024. This was primarily attributed by the under provision of prior year income tax expenses of approximately RMB 1.1 million for Fujian Zilaohu Food Co., Ltd. and higher income tax expenses of approximately RMB 0.6 million for Fujian Zixin Biological Potato Co., Ltd. ("Fujian Zixin") due to higher profits generated in 1H FY2024.

Consolidated Statement of Financial Position

The comparative performance for both the assets and liabilities are based on the Group's financial statements as at 30 September 2023 and 31 March 2022.

Non-current Assets

There was an increase in the Group's total non-current assets of approximately RMB 31.4 million or 10.4%, from RMB 301.6 million as at 31 March 2023 to RMB 333.1 million as at 30 September 2023. This was mainly due to the increase in other assets (non-current) and property, plant and equipment and offset against decreased in intangible assets.

The increase in other assets (non-current) from approximately RMB 82.7 million as at 31 March 2023 to approximately RMB 110.7 million as at 30 September 2023 comprising mainly advance payments to suppliers for the long-term supply contracts of fresh sweet potatoes amounting to RMB 109.4 million. The increase was mainly due to the additional upfront payment for supplies of fresh sweet potatoes amounting to RMB 50.0 million and offset against the utilisation of upfront payment of supplies of fresh sweet potatoes 1H FY2024.

Plant, property and equipment ("PPE") increased by approximately RMB 6.3 million or 4.4% from RMB 142.2 million as at 31 March 2023 to RMB 148.5 million as at 30 September 2023. This was due to the net increase of construction work-in-progress and offset against depreciation expense recorded on PPE in 1H FY2024.

Intangible assets decreased by approximately RMB 2.9 million or 3.9%, from RMB 75.3 million as at 31 March 2023 to RMB 72.3 million as at 30 September 2023. This was mainly due to the amortisation expenses recorded in 1H FY2024.

Current Assets

Inventories decreased by approximately RMB 1.1 million or 54.3% from RMB 2.0 million as at 31 March 2023 to RMB 0.9 million as at 30 September 2023. The decrease was mainly due to higher utilisation of inventories during 1H FY2024 as compared to 1H FY2023.

Trade and other receivables increased by approximately RMB 21.0 million or 95.5% from RMB 21.9 million as at 31 March 2023 to RMB 42.9 million as at 30 September 2023. The increase was mainly due to the increase in sales in the second quarter of FY2024 as compared to the previous period.

Other assets (current) decreased by approximately RMB 6.4 million or 11.5% from RMB 56.2 million as at 31 March 2023 to RMB 49.8 million as at 30 September 2023. This was mainly due to the decrease in upfront payment to the Group's suppliers of raw sweet potatoes, professional service providers and deferred expenses.

Cash and bank balances decreased by approximately RMB 56.0 million or 27.3% as a result of the increase in cash flow used in investing and financing activities and a decrease in net cash flow from operating activities in 1H FY2024 as compared to 1H FY2023. Please refer to the "Consolidated Statement of Cash Flows" section below for more details on the change in cash and cash equivalents of the Group.

As a result of the above, the Group's total current assets decreased by approximately RMB 42.6 million or 14.9% from RMB 285.6 million as at 31 March 2023 to RMB 243.0 million as at 30 September 2023.

Current Liabilities

Trade and other payables decreased by approximately RMB 8.7 million or 23.3% from RMB 37.1 million as at 31 March 2023 to RMB 28.4 million as at 30 September 2023. This was mainly due to the absence of land lease and offset against increase in trade payables as at 30 September 2023 as compared to 31 March 2023.

Consolidated Statement of Cash Flows

The Group recorded net cash from operating activities of approximately RMB 8.9 million in 1H FY2024 as compared to net cash from operating activities of RMB 55.2 million in 1H FY2023. In 1H FY2024, the net cash from operating activities comprised mainly the positive operating cash flow before changes in working capital of approximately RMB 10.8 million, adjusted by net working capital outflow of RMB 0.1 million.

Net cash used in investing activities amounted to approximately RMB 63.9 million in 1H FY2024 as compared to RMB 15.3 million in 1H FY2023. The increase was mainly due to the increase of construction-in-progress and upfront payment for supplies of sweet potatoes of approximately RMB 14.5 million and RMB 50 million respectively

Net cash used in financing activities was approximately RMB 1.1 million in 1H FY2024 as compared to net cash from financing activities of RMB 10.5 million in 1H FY2023. This was mainly due to no additional short-term borrowings in 1H FY2024 as compared to 1H FY2023.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

Not applicable, as no specific forecast or prospect statement was previously provided.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

China's economy had been expanding gradually over the first nine months of 2023 with the Chinese government targeting an economic growth of 5% for 2023. The Civil Aviation of China will be increasing the number of domestic flights to 34% above pre-pandemic levels during the upcoming winter and spring seasons, which will result in 96,651 domestic flights a week through till 30 March 2024.⁽¹⁾ This, coupled with international airlines increasing direct regular passenger flights to China in the winter-spring flight season,⁽²⁾⁽³⁾ bodes well for tourism and consumer spending.

The installation of equipment and machinery as well as the interior furnishings of the Group's new high-tech manufacturing facility and research laboratories are progressing well. The commissioning of the production capacity of 35,000 tonnes per annum to recover nutrients from sweet potato peels to produce functional food is estimated to commence by the end of the financial year ending 31 March 2024 ("FY2024").

The strategic third-party smart warehouse operator has also completed the installation and commissioning of the first phase of the controlled atmosphere cold storage for fresh sweet potatoes, and the distinctive automated sweet potato grading and sorting processing line that also measures the nutritional content of sweet potatoes by exposing them to microscopic rays of light. Similar processing lines, up to eight (8) of such lines to manage approximately 30,000 tonnes of sweet potatoes per annum, will be gradually added to this initial phase of cold storage warehousing to support the sweet potato agriculture sector in Liancheng County, Fujian Province, China. The Group intends to utilise these services at the smart warehouse to (i) maintain the freshness of sweet potatoes for a relatively longer time and lower the amount of spoilage, and (ii) categorise the sweet potatoes for three main channels – (a) sale of fresh sweet potatoes, (b) manufacturing of sweet potato snacks and functional food products, and (c) source of raw material (sweet potatoes that did not meet the quality standards) for the fermentation plant to produce poultry and animal base feed ingredients. This could potentially minimise wastage and risk for the agriculture sector.

Interior furnishings for the recycling and fermentation of sweet potato waste materials and installation of equipment and machinery to turn the waste materials including spoiled sweet potatoes, peels, leaves, and stems into nutritional and safe animal base feeds, were completed at the end of October 2023 by a fermentation company, another strategic third-party operator. Trial production will be carried out with the aim to commence the supply of the feed ingredients to animal and poultry feed manufacturers by the end of FY2024. Subject to the formalisation of the co-management of the fermentation plant, which an update will be provided in due course, the Group could potentially broaden a new income stream through the supply of waste materials including spoiled sweet potatoes, sweet potato peels, stems and leaves from its contracted farmlands and those of others, as well as technical support and probiotic fermentation solutions to the third-party operator from the financial year ending 31 March 2025.

While smoothening the execution of the biotech-focused sweet potato integrated circular economy industrial value chain in Liancheng County, the Group continues to work towards its contribution to the national agenda of food security and food safety.

On 29 June 2023, the Group entered into a strategic collaboration agreement with the Agricultural Genomics Institute at Shenzhen which is a government-supported scientific research organisation held by the Chinese Academy of Agricultural Sciences 中国农业科学院深圳农业基因组研究所. On the same day, the Group also formed a joint venture company, Shenzhen Zixin Provenance Biotechnology Co., Ltd 深圳紫心种源生物科技有限公司 with Fujian Good Villa Agroecological Technology Co., Ltd 福建鼓龙农业生态科技有限公司, and AgSino China Digital Nutrition Technology (Shenzhen) Co., Ltd. 中农数字营养科技(深圳)有限公司. The Group aims to expand into agricultural genomics research covering the whole of China.

On 19 July 2023, the Group entered into a strategic collaboration agreement with the People's Government of Lankao County, Henan Province for the rural revitalisation initiative in Lankao County, Kaifeng City, Henan Province, China with the aim to construct a sustainable sweet potato integrated circular economy industrial value chain that drives economic developments, and enhances the level of agricultural modernisation, especially in the areas of product quality and technology enhancement.

Meanwhile, the rural revitalisation project in Lingao County, Hainan Province, China has commenced the first phase of primary land development.

These strategic expansions beyond Liancheng County are initiated to pave way for sustainable long-term growth of the Group. The Company will announce any material developments as and when they arise.

No dividend has been declared for 1H FY2024. By conserving cash resources, the Group aims to safeguard its ongoing operations and the progress of its construction projects. This approach is intended to prevent significant disruptions to the construction timeline, as any delays would lead to increased construction costs.

Due to the difficult global market conditions and the outbreak and resurgence of COVID-19 in the PRC since February 2022, the Company had to devote all its attention to the Group’s operational and business needs. As a result, the procedure of fulfilling the capital commitment of Fujian Zixin has been temporarily put on hold.
