Revenue from fermented sweet potatoes waste increased by approximately RMB 4.0 million from RMB 0.5 million in FY2025 to RMB 4.5 million in 2H FY2026.

In FY2026, revenue from the C&S segment was primarily driven by an increase in the production and sale of fresh sweet potatoes and sweet potato seedlings, which accounted for a total of approximately 31.2% of the total revenue. The increase in sales of fresh sweet potatoes are mainly due the harvest of fresh sweet potatoes in Liancheng County, which commenced in late August 2025 and continued through early February 2026, along with additional procurements from other sweet potato growing regions in Hainan and Yunnan to meet market demand. The average wholesale selling price of fresh sweet potatoes, particularly for popular varieties such as “Hong Yao” and “Durian”, has remained relatively stable. The rise in revenue from sweet potato seedlings stemmed from the expansion of the seedlings nursery from an initial size of 100 mu to 200 mu in FY2025.

Revenue from the PIFP segment, which primarily includes sweet potato processed products, increased by 27.9% year-on-year, from RMB 323.0 million in FY2025 to RMB 413.2 million in FY2026. The revenue stream in the R&R segment was contributed by and the sale of fermented sweet potato waste derived from agricultural waste, which increased by approximately RMB 4.0 million from RMB 0.5 million in FY2025 to RMB 4.5 million in FY2026. The increase is primarily due to the R&R segment that launched in late FY2025, and in FY2026, the sales volume primarily driven by secured orders for the production and sale of probiotic-infused fermented sweet potato feedstock, which is produced from agricultural waste.

The Group’s gross profit margin decreased from approximately 34.5% in 2H FY2025 to 31.2% in 2H FY2026 and decreased from 34.0% in FY2025 to 30.8% in FY2026. The increase in administrative expenses for FY2026 was mainly due to increases in research and development expenses of RMB 9.6 million, amortisation of intangible assets of RMB 3.6 million, employee benefit expenses of RMB 2.8 million, legal and professional fee of RMB 1.7 million, director's remuneration of RMB 1.0 million, audit fee of RMB 0.4 million, consultancy fee of RMB 0.7 million and travelling expenses of RMB 0.3 million, respectively, which was partially offset by the decrease in depreciation expenses of RMB 0.4 million, plantation expenses of RMB 0.5 million and absent of staff compensation – performance share of RMB 6.6 million. Share of loss from investment in associates

Share of loss from investment in associates of RMB 164,000 resulted from the share of loss from the investment in associate of Zixin Life LLC.

Income Tax Expenses

The addition right-of-use lands mainly represent the additional of 294.6 mu of farmland leased for sweet potato seedlings.

Investment in associates increased by approximately RMB 2.7 million due to the investment in Zixin Life LLC and offset against the share of loss from associates.

Other assets, non-current amounted to approximately RMB 98.2 million, comprising mainly upfront payments to the Co-operatives for the long-term supply contracts of fresh sweet potatoes, increased from RMB 66.8 million as at 31 March 2025. The decrease was mainly due to the termination of a lease contract as the management is of the opinion that the plant and machinery under the lease contract is no longer required. The additional of lease liability mainly due to the additional office lease in Singapore.

Current Liabilities

Other financial liabilities increased by RMB 2.6 million or approximately 3.4%, from RMB 74.8 million as at 31 March 2025 to RMB 77.4 million as at 31 March 2026. This was mainly due to the increase in short-term borrowings undertaken by the Group during FY2026.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable, as no specific forecast or prospect statement was previously provided.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

In FY2026, the Group continued to drive growth from its primary operations located in Liancheng County, Fujian Province, China, while pursuing expansion opportunities in other regions of China, including Lingao County, Hainan Province, and Quanzhou City in Fujian Province. The Group has also established business operations in Singapore with the aim of expanding its presence in the Southeast Asia markets.

As the Group refines and replicates its closed-loop, biotech-focused sweet potato circular economy industrial value chain, it will strive to drive future growth through a three-pronged approach:

- (i) expand upstream cultivation and supply to improve the quantity and quality of fresh sweet potatoes, ensuring traceability and transparency for consumers and addressing food safety concerns;
- (ii) building brands and expanding market presence to enrich the downstream distribution ecosystem, enabling the Group to reach and serve consumers across the food & beverage spectrum through strategic collaborations with established businesses; and
- (iii) continuous investment in research and development to enhance efficiency, advance technology, and optimise processes, including innovations in cultivating high-quality sweet potato varieties and refining production techniques with the goal of improving the nutritional values of both fresh sweet potatoes and processed sweet potato products.

The Group is advancing with its expansion in both China and international markets while remaining mindful of rising costs amid the ongoing conflict in the Middle East, which has resulted in economic pressures. The Group intends to expand prudently. Barring unforeseen circumstances, the Group is cautiously optimistic about its growth over the next twelve months and will continue to monitor the situation vigilantly.

12. If no dividend has been declared/recommended, a statement to that effect and reason(s) for the decision.

No dividend has been declared FY2026. The decision not to distribute dividends stems from the Group's strategy to preserve its cash resources, taking into account the uncertainty of market conditions and the expansion of its operational activities in the upcoming year. By conserving cash resources, the Group aims to safeguard its ongoing operations and the progress of renovations and equipment and machinery acquisition in the new manufacturing facility and additional working capital required to run the new manufacturing facility. This approach is intended to prevent significant disruptions to the completion timeline and operations, as any delays would lead to increased overall costs.

In addition to the above, the Group intends to retain its cash resources for exploring any opportunities in increasing contracted farmlands through Co-operatives which will require advance payment for supplies of sweet potato.

The board of directors of the Company (the "**Board**") will continue to observe the situation and assess, among others, the Group's financial performance and position in respect of the relevant financial period, before deciding on whether to declare dividends.
